ZEBRA CAPTURE YOUR EDGE

Let's Unburden Healthcare Professionals

With fewer workarounds, there's more time for care

Across the world, the demand for health care is exploding. Yet, only half of all countries have enough healthcare workers to deliver quality care[1]. As the gap between supply and demand widens, everyday frustrations fuel clinical dissatisfaction, medical errors and unnecessary workarounds.

Zebra Healthcare Solutions Help Close the Gap and Restore Caregivers' Time

Enable your team to succeed in the industry with the highest stakes. No matter what role they play, Zebra's innovative and interoperable solutions will bring more flow to their day.

Positive Identification

Advanced hospital scanners, printers, barcoded wristbands and labels protect patients, from admissions to discharge and every procedure in between.

Clinical Mobility

Untether caregivers from desk phones and clunky computers. Put everything and everyone they need at their fingertips to make more confident decisions.

Real-time Tracking and Locating

Save time and steps locating equipment and staff, especially during emergencies. Gain tighter control over operations with real-time insights.

Give Caregivers Technology Designed for the Way They Work

When you give your team more power to solve things efficiently, they gain more time for care. Zebra's healthcare-grade solutions are developed with nurses and clinicians in mind.

Caregiver-centric

Our solutions help streamline and simplify workflows, eliminating unnecessary workarounds

Unifying

Zebra interoperable solutions make it easy for caregivers to exchange information and instantly connect with colleagues, equipment and patient data

Restorative

Our purpose-built tech works intuitively, helps end frustration and anxiety as well as restore time by empowering caregivers to solve in the moment

1. Global Burden of Disease Study (2017)

Exclusivity Pays

Benefit from our unique partnership with Zebra

As a member of Zebra's exclusive Healthcare Channel Partner Specialization Program, we can offer you significant advantages that translate into desired cost savings, improved workflows and an empowered frontline.

Ask us how you can enjoy ...

- Better deal pricing
- Ongoing implementation support
- Access to products and solutions tailored for your immediate needs

Let Zebra solve for you, as it's done for major hospitals worldwide

With heavy investments in R&D keeping us on the cutting edge of technology and strategic acquisitions bolstering 350+ healthcare SKUs, Zebra stays ahead of the curve and in front of future demands. It's how we've maintained technology leadership for more than 50 years.

- 5,000+ successful implementations in hospitals worldwide
- A vast, global ecosystem of specialized partners (healthcare, ISV and RFID)
- Over 4,000+ patents
- Integrates with 30+ popular electronic health record and 3rd-party vendor apps
- Dedicated healthcare division with 1,200+ software engineers
- Leader in Gartner magic quadrant for indoor tracking solutions*

Zebra Solutions Pass the Test of Healthcare Experts

Every Zebra healthcare solution is the culmination of collaborating with those who know healthcare best. The clinicians, clinical informaticists, information technologists and executive leadership immersed in the industry weigh in on designs, engineering, and resolutions to workflow issues. So you can be confident that Zebra hardware and software are purposefully built to anticipate, integrate and solve your healthcare challenges.

**Restore caregivers' time.
Reignite their purpose.**
